

3rd Break-out session (4 groups)

- Exercise with 4 different case studies
- Which tools would be needed for which step to conduct which dimension of the assessment?

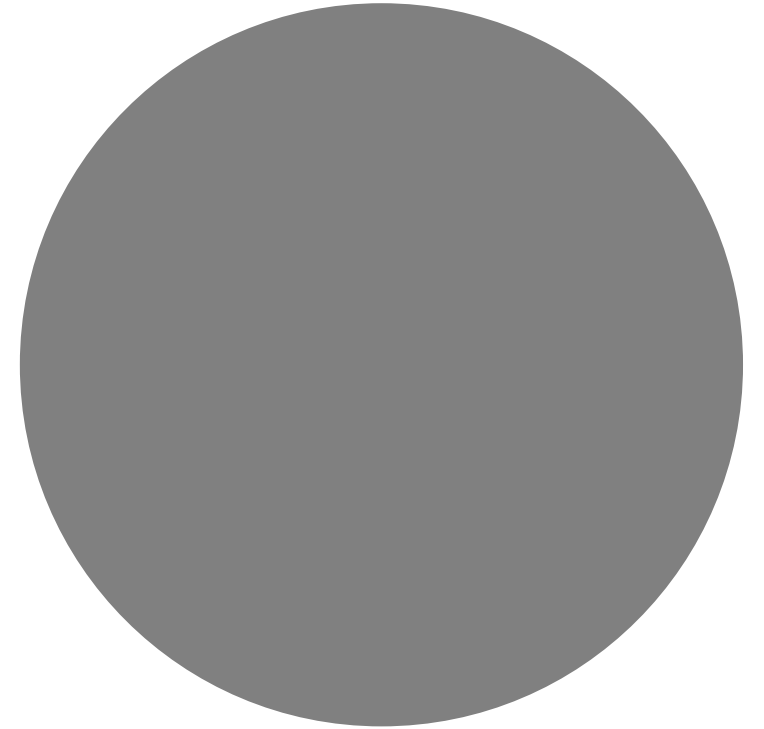

4th Break-out session (4 groups)

1. Do you think the W-VAA guidelines are useful? If so, in what ways?
2. Do you think the W-VAA guideline sections are sufficiently clear? If not, please identify areas for improvement.
3. What are recommended strategies and approaches to promote this WVAA guidelines to Watershed-scale planners and development practitioners?
4. Are there things that would make help improving the guidelines?
5. Would you use the guidelines in your future work?
6. If there was training for the guidelines, what would we need to focus on?
