

What is the GMS Green Freight Initiative ?

Low Carbon Transport Corridors in the GMS

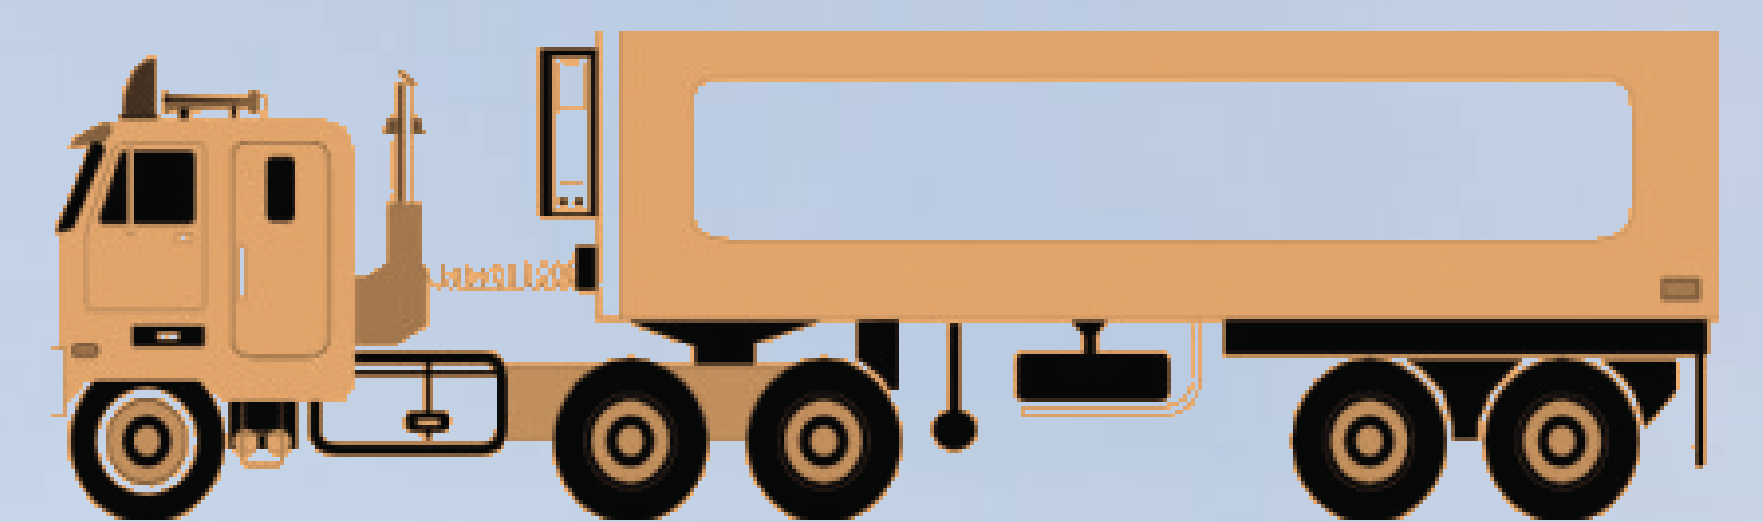

CEP is supporting green freight development in the GMS in three phases:

Phase 1: Pilot projects in Lao PDR, Thailand and Viet Nam

SCOPE: Financing to support uptake of green technologies for trucks, eco-driving training, logistics management software

**75
TRUCKS**

TIMELINE:
2014 to 2016

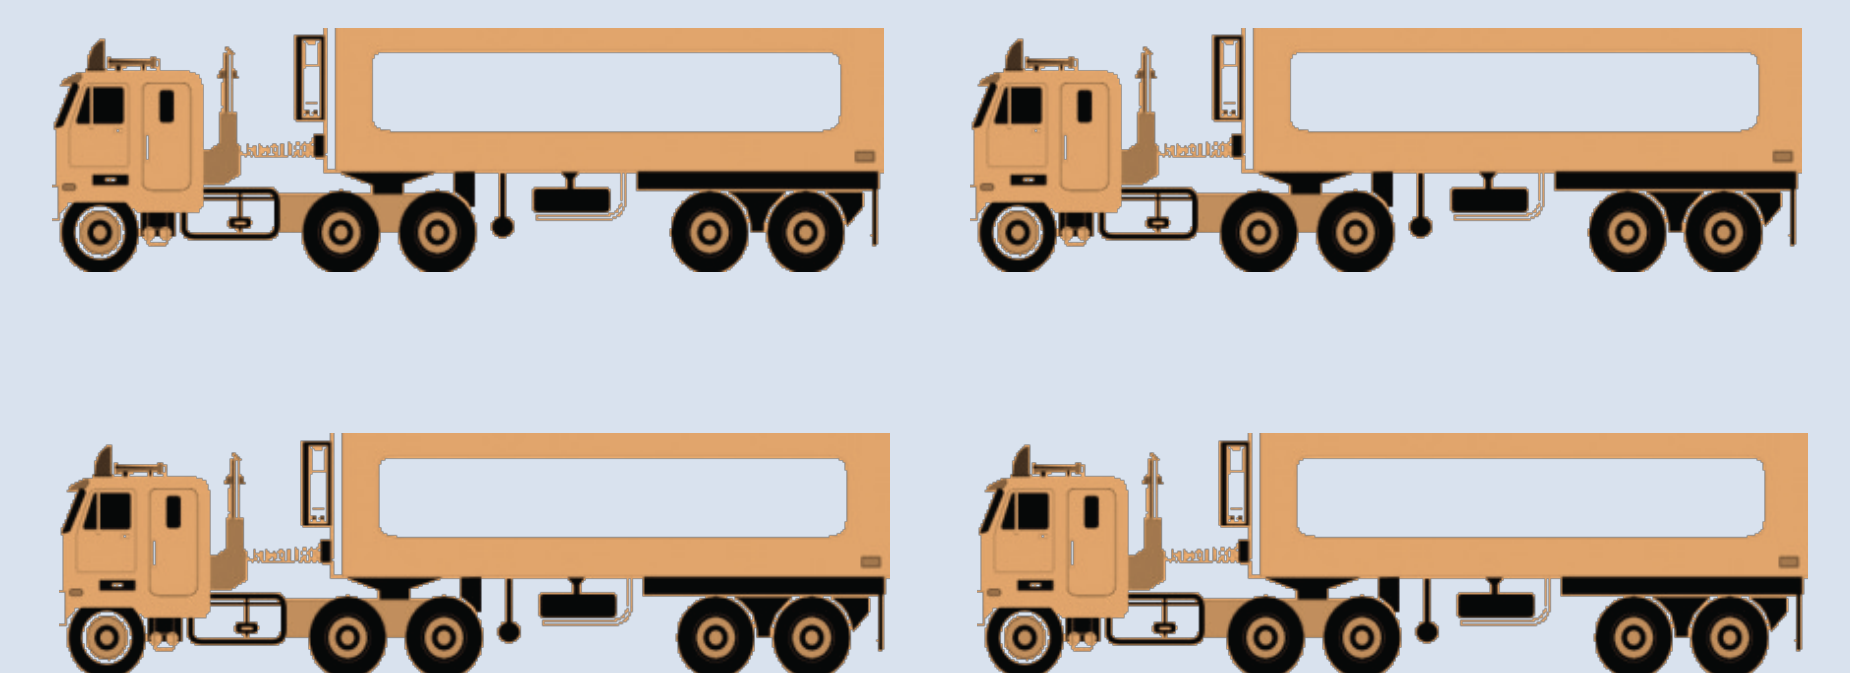

Phase 2 (proposed): Regional investment project in Lao PDR & Viet Nam

SCOPE: Financing :
- Logistics ESCO to support 'greening' of priority supply chains
- Green freight fund to support credit guarantees for freight SMEs

**800
TRUCKS**

TIMELINE:
2016 to 2020

Phase 3: Upscaling through national policies and programs

SCOPE: National policies and programs to support fuel efficiency of freight transport, Nationally Appropriate Mitigation Actions (NAMAs) for freight

**FREIGHT
SECTOR**

TIMELINE:
Post 2020
