

Child Centered Climate Change Adaptation **Thailand**

Promoting child rights to end child poverty

Thailand 4CA Project

areas

Northern provinces:

- Chiangmai and Chiangrai

Partners:

- 2 Community Based Organizations:
 - CITC (Capacity Improvement of Tribal Community in Nomfang Basin)
 - RCDP (Rural Community Development Program)
- Local district government (Tambon Administrative Office TAO)
- Education Service Area office

Target groups: most-at-risk populations

- Disaster risk and climate vulnerability
- Highlanders
- Stateless
- Migrants
- Sponsorship children

Goal: Safe and resilient communities in which children, young people contribute to managing and reducing the risks associated with changes in the climate.

Crosscutting issues: 1) Participation; 2) Gender and diversity; 3) Disability; 4) Child protection

**Outcome 1:
AWARENESS**

Increased awareness and capacity of children, youth and communities on 4CA.

**Outcome 2:
ACTION**

Through locally designed climate smart solutions, a demonstrable 4CA model is established.

**Outcome 3:
ADVOCACY**

Good practices and learning from the 4CA model incorporated into local, district and/or national government processes.

Foundation of the program: Children and Youth

GOOD PRACTICES of youth club in Viang Hang, Chiang Mai Province

Supported small seed grants to Youth club in community

Ban Mae Had Youth Safe Club

- 1. Group Formulated – since 2012**
- 2. Process of Development**

2.1 Problem Analysis of Environment issues and disasters in community – drought, lack of water from reservoir, no protection zone to save water

2.2 Started activities with child participation, community mapping & risk assessment , natural check dam built and Banana Plantation

2.3 Benefits – Create ENVIRONMENTAL MINDSET & Behavioural Change to protect their resources in community & Good Team Work

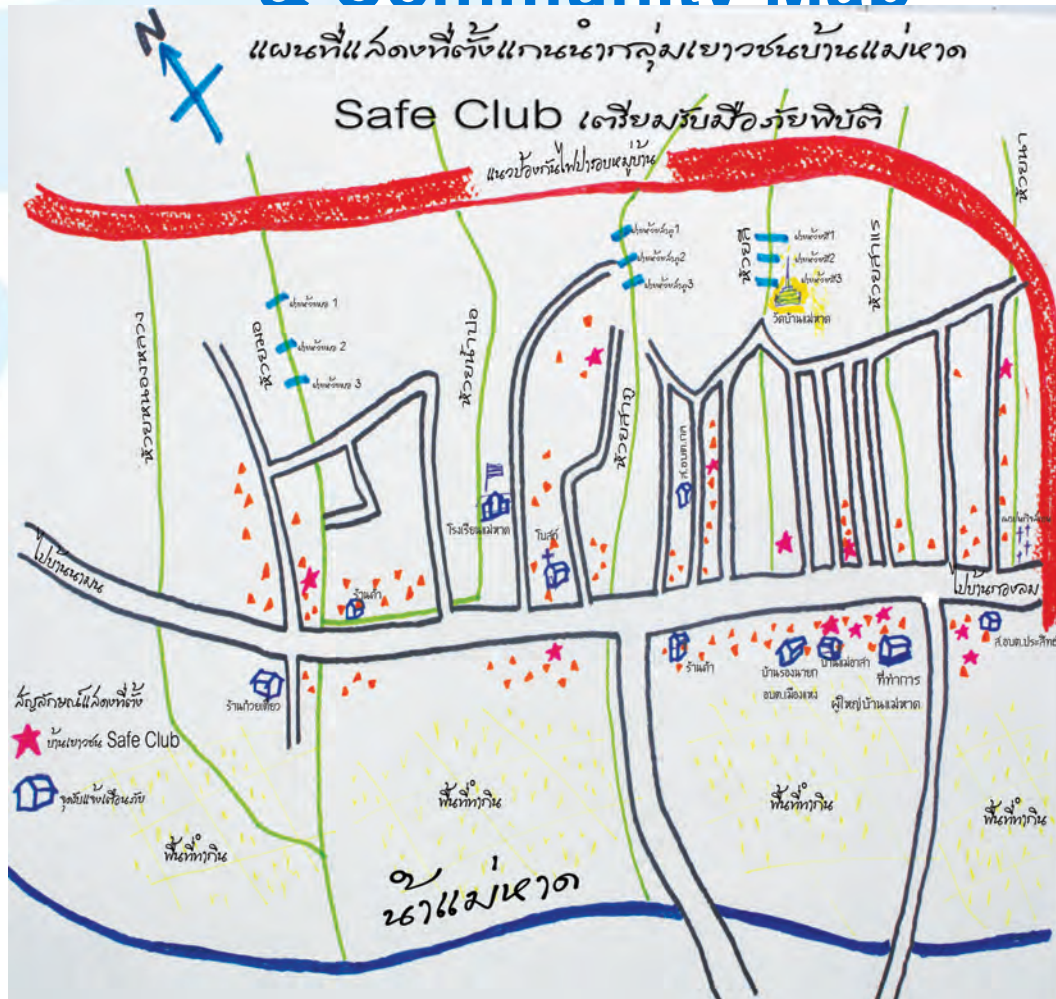

Promoting child rights to end child poverty
